## EDUCATIONEDUCATION

---

### Old Dominion University

Jan 2026 – Present | Norfolk, VA

*Bachelors of Cybersecurity, GPA 3.3+*

### Laredo College

June 2022 – December 2024 | Laredo, TX

*Associate of Science*

## WORK EXPERIENCE

---

### Old Dominion University

*June 2026 – Present | Norfolk, VA*

*IT Student Technician*

- Provided Tier 1 IT support by troubleshooting hardware, software, operating system, and network-related incidents in a high-volume help desk environment supporting enterprise users.
- Created, updated, and managed incident tickets in an IT service management system, ensuring accurate documentation, timely resolution, and compliance with service control procedures.
- Supported secure access control systems by assisting with user authentication, account permissions, and system access management across university environments.
- Assisted senior IT staff by delivering printer supplies and performing routine printer audits across Old Dominion University to support operational readiness, asset accountability, and service continuity.

### Target

*Sep 2024 – Present | Chesapeake, VA*

*Front Store Attendant*

- Delivered customer support in a fast-paced environment while maintaining attention to detail and accuracy in transaction processing and operational procedures.
- Processed financial transactions using POS systems, handling cash and electronic payments with compliance and accountability.
- Identified and reported suspicious activity and potential fraud in accordance with established security and loss prevention procedures.
- Resolved customer concerns efficiently while maintaining professionalism and service quality.

### Texas Association of Chicanos in Higher Education (TACHE) TX

*Feb 2023 – April 2024 | Laredo,*

*Treasurer*

- Managed organizational funds supporting academic events, conferences, and student initiatives while ensuring accountability and proper allocation of resources.
- Processed and tracked withdrawals, expenditures, and financial records while maintaining documentation accuracy and transparency.
- Supported planning and funding of educational programs, fundraisers, and advocacy initiatives promoting student success.
- Ensured compliance with financial procedures and maintained strong documentation practices for organizational reporting.

### Laredo College – Student Government Association

*May 2023 – April 2024 | Laredo, TX*

*Student Senator*

- Represented the student body by addressing concerns, advocating for student initiatives, and participating in official meetings and forums.

- Participated in policy discussions and voting processes impacting the college community and campus operations.
- Collaborated with administrators and student leaders to implement student-focused initiatives and institutional improvements.
- Communicated effectively with diverse groups to gather feedback and provide updates on decisions and policy changes.

## PROJECTS & ACADEMIC EXPERIENCE

---

### Windows & Linux Log Analysis Lab

Old Dominion University | Cybersecurity Coursework

- Investigated Windows Event Viewer logs (Security, System, and Application) to identify failed logins, system warnings, administrative activity, and security-related events.
- Analyzed IIS web server logs to track IP addresses, timestamps, directory access, and user-agent data for forensic investigations and incident response support.
- Reviewed Linux authentication logs (auth.log / secure) and Apache access logs to identify remote logins, account changes, and suspicious server activity.
- Used Sysinternals PsLogList to export Windows event logs and wget to generate and analyze web traffic for forensic timeline reconstruction.
